Play Dough Recipe

Ingredients

- 1 cup flour
- 1 cup warm water
- 2 teaspoons cream of tartar
- 1 teaspoon oil
- ¼ cup salt
- Food colouring

Alternatively, use beet, spinach or carrot juice for pink, green or orange colours instead of artificial food colouring.

- For a nice fragrant smell, add some lemon or lavender essential oil to the recipe.

Directions

- Mix all of the ingredients together and stir in a pot over low heat. The dough will start thickening.
- When the dough starts to pull away from the sides of the pot and clumps in the centre, remove the pot from the heat and allow the dough to cool down enough to handle it. NB: If the dough is still sticky, you simply need to cook it for longer.
- Once it's dry and cool, turn the dough out onto a clean counter or tray, and knead vigorously until it becomes smooth.
- Divide the dough into small balls for colouring.
- Make a hollow in the centre of the ball, and drop some food colouring in it. To stop any concentrated dye staining your hands or the counter, use gloves and plastic wrap.
- Fold the dough over, working the food colour through the dough. If necessary, add more dye to get the colour that you want.

Medium Size Balls (10cm) and Tennis Ball
