Inspire Drone Aptitude Course

Ages 15+

Learn about drone technology and operations and the principles of flight

TENEO
SA'S NO.1 ONLINE SCHOOL

About

Inspire Africa offers learners on introduction to coding, robotics and drones. This will provide them with a deeper understanding of the applications of 4IR technologies across a myriad of industry sectors.

Our focus is to expose as many students as possible to the disciplines of Science, Technology, Engineering, Arts and Mathematics {STEAM}. Our programme will bring STEAM to life through various courses that will take the learners on a journey of discovery In operating ond flying drones, coding and robotics. They will start to appreciate how 4IR technologies can be utilised almost everywhere - all whilst having great fun doing it.

Inspire Drone Aptitude Course

For those that are interested in entering the drone industry, this course is a must. Learn more about the factors affecting drone operations and become immersed in the principles of flight.

Although most industrial drone courses only grant access to students of 18 years and up, this course is suitable for ages 15 and upwards.

Accessible via the Inspire Campus, this online self-study course allows users to complete the course at their own pace with interactive videos and quizzes.
